2014 IANA Customer Survey

Survey running for 4 weeks from mid-September

Identical structure to 2013 for year-on-year comparison

Improved technical requirements, including IPv6 for web hosting

Full results to be published later this year

Thank you for agreeing to participate in this research designed to measure your satisfaction with ICANN's provision of the IANA functions. ICANN is dedicated to working to deliver sustainable, systematic improvement and your feedback on this survey will help that goal.

This survey is being managed by Ebiquity, an independent research firm. Ebiquity is committed to protecting the confidentiality of all respondents, in line with the Code of Conduct of ESOMAR and CASRO. This means that all opinions are confidential and not attributed to any specific individual. So please be candid: it is important that we are able to feed back what people really think.

IANA Functions Stewardship Transition FAQ

Q. What is this process about?

A. To develop a proposal to transition NTIA's stewardship of the IANA functions

Q. What is this process not about?

A. This is not about ICANN's role as the operator of the IANA functions – this role is not the focus of the transition

Q. Is there a target date for the transition to take place?

A. Depending on the progress of the dialogue, the global multistakeholder community could be ready to complete the transition before the renewal of ICANN's contract with the USG in September 2015

Q. Does this announcement jeopardize the security, stability and resiliency (SSR) of the Internet DNS?

A. No. In fact, maintaining the SSR of the Internet DNS is one of the principles outlined by the NTIA
